Objective : An IT consultant, experienced, dynamic and capable of helping in your office for a few hours a week ?
Yes, it's possible !

Dear,

Your company is expanding and wants to enlarge its activities in the computing sector. My professional aim is to offer my future clients a complete service which fulfils their expectations.

My assets are my wish to know as much as possible concerning new technologies plus my professional experience which gave me the knowledge needed to develop and maintain any computer network as well as understanding the internal dynamics of a firm. I had an unlimited contract for two years as an **IT Manager** in a group of four societies in the advertising and media branch and I am working now as an **IT Consultant** specialized in the development and maintenance of computer networks. My **Curriculum Vitae** will show you that those are not my only assets. I am able to advise my clients in more ways than one.

As I introduce in the objective, my hours are flexible. I can be at your disposal for a few hours a month as well as a few days a week...depending on your needs.

My application is spontaneous because it is my ambition to qualify and succeed in my professional activity.

A letter cannot reveal the whole competence of a person and that's why I would like to meet you, so that I can motivate my reasons. If I don't hear from you in a week's time, I'll take the liberty of calling you.

Respectfully yours.

Mathieu Guastella

Curriculum Vitæ

Edition 5.3 reviewed April 2004

The layout is spread over a few pages this CV is brief and objective.

I. Presentation

Mathieu Guastella	<u>Mobile</u>	+32 495 10 10 11
Belgian, single, ~23 years old	<u>Fax</u>	+32 495 56 26 26
